----- Size -----

0.5cm

Note:Size is subject to actual sample.

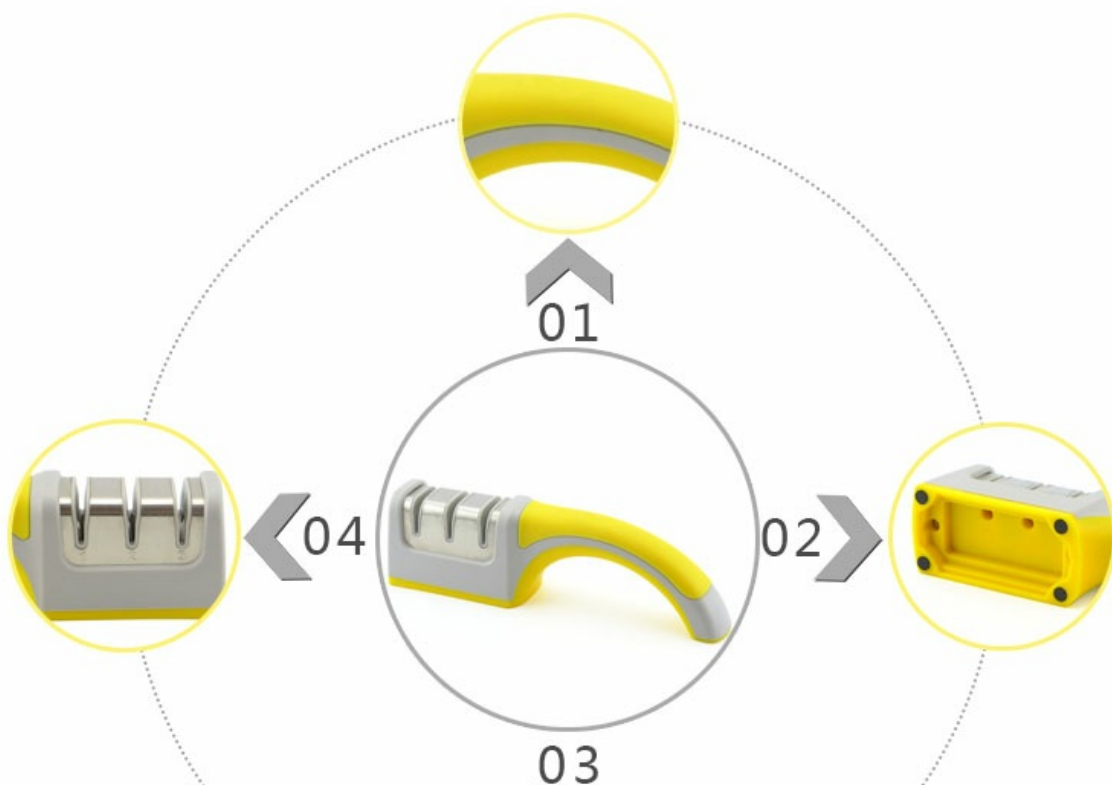

----- Details -----

01 Beautiful back pad, luxury, gorgeous, splendid and posh

02 Anti-slip ground mat, make sharpener stable, safe is most important

03 Ergonomic handle, to provide best sharpening experience

04 Three section of knife grinding, combining fine grinding and rough grinding

Directions for use

01 Rough grinding

Put blade into rough grinding side, pull knife blade back and forth in constant speed, repeat 3-5 times

Rough grinding is suitable for rough blade knife or the knife using long time but not grind yet

Generally, suit for cleaver knife, chef knife, carving knife and paring knife

The width of knife grinding edge is 5MM, about 2 corns thickness, Chopping knife's blade is thicker, so it depends

on the knife when using the sharpener

02 Grinding

Put blade into grinding side, pull knife blade back and forth in constant speed, repeat 3-5 times

Suitable for rough blade knife or the knife using long time but not grind yet

Generally, suit for cleaver knife, chef knife, carving knife and paring knife

The width of knife grinding edge is 5MM, about 2 corns thickness, Chopping knife's blade is thicker, so it depends on the knife when using the sharpener

03 Fine grinding

Put the blade into the fine grinding side, pull knife blade back and forth in constant speed, repeat 3-5 times

Fine grinding side used special ceramic raw material, have nice grinding feature.

Generally use to be repaired the rag after rough grinding, makes the blade more smooth.

Using ceramic side for grinding regularly will extend service life of knife.

Warm Prompt
