----- Details -----

Applying to all kinds of cans, bottles, soda cap, it can be used for bottle opener, suitable for outdoor camping, picnic, travel carrying and so on.

Ergonomic design, PP rotating handle, non-slip, touch feeling is comfortable, simple and easy.

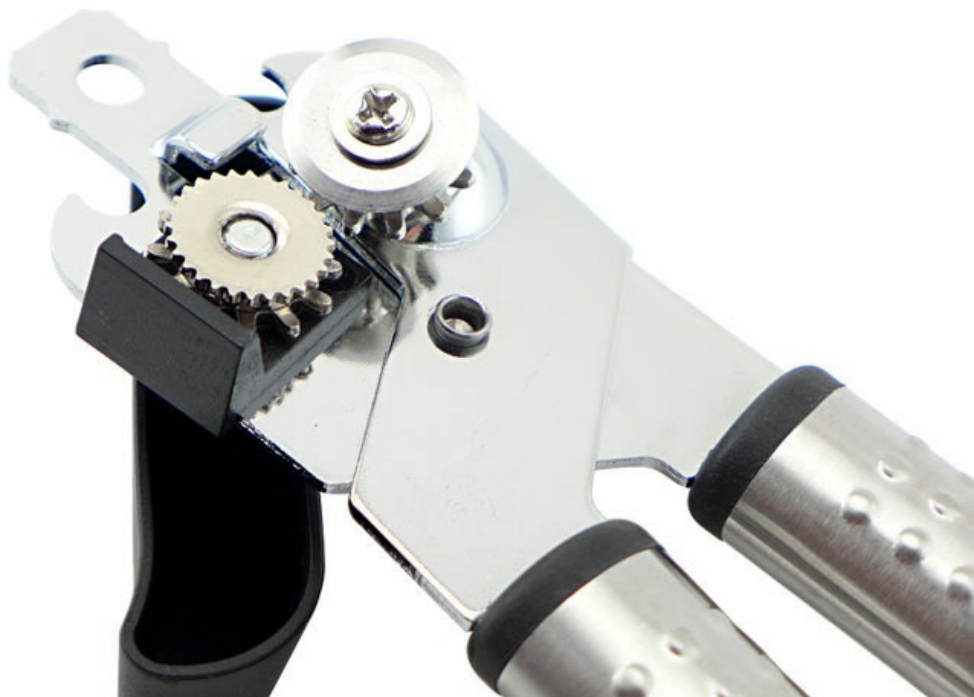

Fine and perfect gear and sharp blade pulley, help you to easily open the lid, rivet rotate and fix, then clockwise turn the plastic gears, very easy to use and save energy.

**Tight work, every small parts is in fine grinding,
high-grade design, multi-function purpose.**

**Stainless steel handle is fine and smooth, will not
hurt hand and in comfortable touching.**

Hanging hole design, easy to storage and save space.

Note: please twist the iron plating gear clockwise when gear and blade stuck cover the can edge, then can easily open the cans, please do not counterclockwise twist, otherwise it will cause damage of can opener.
