DETAILS

It is made of food safe stainless steel

It is made of food safe stainless steel,  
high hardness and more durable  
than plastic material mixer.

Handle is soft and  
with anti-slip design to fix the finger.

Strong joint between blade and handle,  
hard to fall off, strong and durable.

---

## COLOR

Evenly arrayed linear blade mix the flour evenly, which can speed the dough.

---

It can be used not only as a flour mixer, but also as a cutter to cut hard butter and cheese, and so on.
